

Attached is the MRI wait time report for fiscal 2014/15. Please note the following:

- It is important for anyone interpreting the results to be familiar with the exclusions and inclusions on the notes page (pg.2-4).
- The wait time reports are for outpatient completed cases only.
- The wait times are expressed in days.
- The wait times are reported at the 90<sup>th</sup> percentile. This means that 9 out of 10 patients got their MRI completed in the reported amount of time (in days). Reporting wait times at the 90<sup>th</sup> percentile is consistent with the reporting practices in Alberta and Ontario.
- The wait time is calculated as the difference in time between when a booking form is received by the MRI department and when the exam is completed.
